

VIFT ELECTRIC FORKLIFT

VIFT forklift, founded in 1993, is a Shanghai-based leading manufacturer specializing for handing equipment from product design, production, to after-sales services for material handling equipment suppliers worldwide. At VIFT Forklift, we commit to producing the right truck for each application. After years of development, VIFT has its own direct stores in the United States, Chile, Canada, France and Germany to ensure the best service for customers in each country. Of course, we have been pursuing better development and are willing to grow with customers all over the world. Welcome customers all over the world to join VIFT. In the future, VIFT will achieve better results with customers all over the world Achievements.
